

COMPAMED SUPPLIERS FORUM by DeviceMed (Hall 8b, Stand 8bG40)

Time	Monday 13 November 2017	Time	Tuesday 14 November 2017	Time	Wednesday 15 November 2017	Time	Thursday 16 November 2017
10:50-10:55	Begrüßung Peter Reinhardt, DeviceMed						
11:00-11:30	Marktchancen für die Photonik in der Medizintechnik Wenke Süptitz, Spectaris	11:00-11:30	Novel Elastomers; its advantage and processability in liquid injection moulding Stéphane Cornelis, Dow	11:00-11:30	Electronic Manufacturing Services (EMS) – Break new ground for outstanding sustainable results Frank-Ralf Mayer, Cicor Group	11:00-11:30	Changes in ISO 10993 – how to be prepared Carolin Schmied, Eurofins BioPharma Product Testing Munich
11:35-12:05	Creating values through biological risk assessments and chemical characterization Beate Klumpp, Namsa Group	11:35-12:05	Highest-level reliability – How autoclavable LEDs and connectors enable innovative and simplified medical device designs Christoph Stangl and Jochen Herzberg, Schott	11:35-12:05	New technology enabling highquality glass based consumable manufacturing Marcel Fischer, Schott	11:35-12:05	MR-kompatible Instrumente: Führungsdrähte, Steinfang-, Thrombolysekörbchen und steuerbare Katheter für die MRgeführte Biopsie am Herzen Prof. Dr. Melzer, ICCAS & IM Sat, EP-Flex
12:10-12:40	Miniaturised sensors for integration in catheters and electrodes Dr. Eckardt Bihler, Micro Systems Technologies	12:10-12:40	New antimicrobial, non-yellowing foam formulations for advanced wound care Dr. Marc-Stephan Weiser, Covestro Deutschland	12:10-12:40	An innovative select adhesion liquid silicone rubber product by medical silicones Dr. Pennadam Sivanand, Dow	12:10-12:40	From product idea to serial production: How contract manufacturing can help in all steps of a product's lifetime Ole Stein, Quasar
	Regulatory affairs		Digitalisation		Additive manufacturing		Wearables
12:45-13:15	Von der MDD zur MDR – neue Herausforderungen an Klinische Bewertungen Katharina Thievensen, Metecon	12:45-13:15	Neue Geschäftsmodelle und Security für Medizingerätehersteller Oliver Winzenried, Wibu-Systems	12:45-13:15	3D-printing in healthcare Rene Martin, Stratasys	12:45-13:15	Smartwatch electronics meets medical wearables Bernd Maisenhölder, Iftest
13:20-13:50	How to deal with the Medical Device Regulation – clinical requirements and post-market expectations Dr. Isabelle Lang-Zwosta, Dr. Knoell Consult	13:20-13:50	Modulare Software-Entwicklung im Rahmen der Konformitätsbewertungsverfahren von Medizinprodukten Michael Takla, VDE Prüf- und Zertifizierungsinstitut	13:20-13:50	Benefits and legal challenges in 3D printing Dr. Henning Sternemann, Cohausz & Florack	13:20-13:50	Enabling materials for wearable patches – soft embedding and skin friendly fixation Gerd Büschel, Covestro Deutschland
13:55-14:25	Maintaining reliable speed to market under the new MDR Hans-Werner Zeller, CSA Group and Hans-Gerd Evering, BSI	13:55-14:25	Medical Software im Kontext der MDR – Safety und Security Thorsten Stumpf, Metecon	13:55-14:25	Industrial scale high-precision 3D printing in medical technology Dr. Benedikt Stender, Multiphoton Optics	13:55-14:25	Smart textiles for wearable medical applications Akram Idrissi and Max Schwab, Institut für Textiltechnik der RWTH Aachen
14:30-15:00	Regulatory changes and new considerations for biocompatibility testing of medical devices Thor Rollins, Nelson Laboratories LLC	14:30-15:00	Regulatory landscape for EO residue levels in medical devices Stefan Reisbacher, Sterigenics	14:30-15:00	Graphene for neural interfaces and biomedical technologies - Jose Antonio Garrido, Graphene Flagship	14:30-15:00	Regulatory changes and new considerations for biocompatibility testing of medical devices Thor Rollins, Nelson Laboratories LLC
15:05-15:35	Patente und Software – ein Widerspruch? Björn Browers, Cohausz & Florack	15:05-15:35	Neue Aspekte zur Erfüllung der Anforderungen an die Validierung in der Strahlensterilisation Katja Mierisch, BGS, Beta-GammaService	15:05-15:35	Electronic challenges in medical devices Patrick von Meiss, Valtronic	15:05-15:35	3D-printing in healthcare Rene Martin, Stratasys
15:40-16:10	Plasticisers for medical devices – regulatory overview and outlook Dr. Rainer Otter and Dr. Angelika Langsch, BASF	15:40-16:10	More efficient product development cycles: Choose a supplier with development and plastics processing experiences Dr. Markus Schönberger, Frank Plastic	15:40-16:10	Preparing for the US market – What to expect from US-FDA Lacey Chessor, Dr. Knoell Consult	15:40-16:10	Neue Geschäftsmodelle und Security für Medizingerätehersteller Oliver Winzenried, Wibu-Systems
16:15-16:45	Hochleistungskeramik in der Medizintechnik Andreas Rempp, Ceramtec	16:15-16:45	Drive systems for portable drug delivery devices Robert Varonier, Dr. Fritz Faulhaber	16:15-16:45	Functional surfaces toolbox for diagnostic and biomedical applications Dr. Heinrich Jehle, Greiner Bio-One	16:15-16:45	Hermetic glass encapsulation for implants and micro-electronics Martin Künzi, Glencatec
		ab 16:50	Expertengespräch: Cyber Security – aktuelle Bedrohungslage und Konsequenzen für Medtech-Hersteller Oliver Lehmkuhler, Innovative Medizin NRW, Josef Krojer, System Industrie Electronic, Oliver Winzenried, Wibu-Systems, Steffen Zimmermann, VDMA Moderation: Peter Reinhardt, DeviceMed	16:45-17:45	Xing-Gruppentreffen der Ambassador Community Medizintechnik Mit Impulsvortrag: Holger Ahrens, Die Profiloptimierer, gibt 5 Un-Tipps für Ihre Online-Profile
